## EverRest by Amana – The Last Unit You'll Ever Have To Buy

*Discover a new level of comfort, reduce your electric bills, and enjoy the security of a unique Lifetime Warranty, thanks to a partnership between Farm & Home and Amana*

Farm & Home is proud to offer the Amana EverRest Extreme Comfort, which is so durable that it comes with a Lifetime Warranty! To celebrate our partnership, we're offering generous incentives for immediate installation of new Amana central air systems. In fact, we'll even be giving away one system to anyone who becomes a friend on our new Facebook page (*see story below*).

Amana air conditioning units blend superior quality and durability with style and spectacular energy savings. You can choose from a variety of efficiency levels, including some units that achieve 18 SEER (Seasonal Energy Efficiency Ratio). Some units are so efficient that they qualify the owner for a federal tax credit. **You could reduce your 2010 federal income tax by as much as \$1,500**, but the credit is set to expire at the end of this year, so it's vital to act now!

A new Amana central air system could save 30% or more on your cooling costs, while running more quietly than your old system and delivering comfort more consistently.

**To find out more about our special offer on Amana air conditioning, please call our office today!**

## Farm & Home Gives Away Amana A/C on Facebook!

Farm & Home is **now on Facebook** – and celebrating in a big way! One lucky person who adds us as a friend will be entered to win a brand new Amana 14-SEER EverRest Extreme Comfort system for free! The system includes a condenser, an indoor coil mounted in existing ductwork, refrigerant line set, and wiring.

Follow us on Facebook by searching for "Farm & Home Energy." Fans of our page will enjoy exclusive content, tips and updates, plus the opportunity to enter the "Extreme Comfort System Sweepstakes."

**WE ARE NOW OFFERING PROPANE AT OUR MILTON LOCATION!**

# Outdoor Living at Its Best

Propane enhances summer convenience and comfort in many ways

With the rugged winter of 2009-10 behind us, it's time to get outside and enjoy the fresh, warm air. You can **take your outdoor enjoyment to a new level and make your yard a favorite gathering spot** this year with propane service from Farm & Home.

Propane adds a lot to your outdoor fun. It fuels your grill with greater convenience and control than old-fashioned charcoal can ever provide. You can set the temperature at whatever level you choose throughout the cooking process, so there is no overheating, and your meals always come out the way you planned. There are no bags of briquettes to buy or haul, no lighter fluid, no waiting for

the coals to heat up – and no ashes to clean up!

Hot tubs and swimming pools are also more enjoyable with propane. A propane-fired pool heater **warms the water quickly and economically**, so that you're in control and can choose the temperature you want when you want it.

With propane, you can add festive touches with **tiki torches** and a **firepit**. You can also reduce the insect nuisance with a propane-fired "skeeter eater."

To add excitement to your summer fun, call Farm & Home today. **We'll install a tank and your appliances and deliver your propane automatically.**

## Propane Is Great Indoors, Too!

Versatile propane can make your home a happier place all year long. In addition to all that it does outdoors, **this great fuel also powers stoves, clothes dryers and hot water heaters.** You can get cozy too, with **fireplaces, fireplace inserts and space heaters**, and your garage or three-season room becomes more comfortable all winter when you add a **propane room heater.**

**Propane appliances outperform electric ones and cost less to use**

## Cover Every Appliance with a Cost-Saving Service Plan

*For more information on these new service plans, please call our office or visit us online at [www.fhenergy.com](http://www.fhenergy.com).*

Farm & Home customers appreciate the valuable protection that our service plans provide for their Oiheat equipment, so we have decided to **expand our range of plans to cover more comfort systems.**

In the months ahead, **Farm & Home will introduce plans to cover almost every kind of heating and cooling equipment.** Our new agreements will cover air conditioners, propane heaters, hot water heaters and more. Like our Oilheat agreements, these new plans will provide regular preventive maintenance while also covering key components of your equipment with replacement and repair warranties. In addition, our service plans cover much of your equipment repair expenses.

# Sign Up for Special Offers by E-Mail and Save \$10

If you like saving money, you'll love the Farm & Home Web site!

Our site, [www.fhenergy.com](http://www.fhenergy.com), is the new hub for special offers and savings on home comfort, such as coupons for services, fuel and new high-efficiency equipment. We'll soon be launching a

new series of e-mail bulletins that will include helpful energy-saving tips and information plus exclusive promotions that will **drive down your costs** for heating and cooling.

To make sure that you receive these helpful notices, visit us at [www.fhenergy.com](http://www.fhenergy.com) today and give us your e-mail address, and **we'll provide a \$10 credit** that you can use for any Farm & Home delivery or service. We promise not to share your information with anyone, and you can unsubscribe at any time.

While you're at the site, please take some time to browse around and learn more about our products and services. You'll find information on the Energy Kinetics System 2000, the first fully integrated heat and hot water system that can save you as much as 40% off your monthly energy bill. You can also read about Bioheat®, propane delivery, high-efficiency air conditioning and more.

## LET US GIVE YOU \$50!

If you enjoy the exceptional service from Farm & Home Energy, **share the news and reap the rewards!** Simply refer a friend, co-worker, family member – anyone and everyone you know, to Farm & Home.

When your referral becomes a Farm & Home Bioheat or Propane customer, you'll **earn a \$50 credit to your account\***. Even better, there are no limits – you can refer as many people as you'd like, and will earn \$50 for each one that becomes a qualified account.

We know your referrals will be as happy with our technical expertise, professional staff and 24/7 service as you are. Call your local Farm & Home office today.

*\* Some restrictions apply. Call for details.*

## How to get your \$10 credit:

To receive the new Farm & Home e-bulletins, and a \$10 credit to your account, simply provide your e-mail address on the enclosed reply card, or visit our Web site at [www.fhenergy.com](http://www.fhenergy.com) and use the "Contact Us" page to send your e-mail address.

## Milton Sales Rep Wins Award

Cindie Steese-Lytle, Farm & Home Energy's Sales and Marketing Representative at our Milton office – and our customer contact for propane and heating oil sales – has been presented with the 2009 Junior Achievement Volunteer of the Year Award. Cindie has been involved with Junior Achievement for the past 7 years. She is currently Co-Chair for the Young Women's Symposium, held each March at Bucknell University, and also serves as a Junior Achievement school liaison. In addition, Cindie has volunteered as a Sunday School teacher for

the past 15 years, and is a praise band singer and Trustee Secretary at the Watsontown United Methodist Church. A past member of the Warrior Run Volunteer Fire Dept., she has recently joined the Milton Fire Department. Cindie also serves as Vice President of the Watsontown Area Business Association; Civic Committee Member for the Greater Susquehanna Valley United Way; and is a member of the local chambers of commerce.

## How Clean Is the Air You Breathe?

Your home is your sanctuary, **but problems with indoor air quality can compromise your comfort and health.** The U.S. Environmental Protection Agency (EPA) cites a growing body of scientific evidence indicating that the air within homes and other buildings can be more seriously polluted than the outdoor air in even the largest and most industrialized cities.

There are numerous sources of indoor air pollution, according to the EPA, including tobacco smoke; pollen; damp carpets; cleaning products; and products made of pressed wood. Separately or together, these sources can **cause throat and eye irritations and aggravate health conditions.**

Here at Farm & Home, we look after your total home comfort, including your air quality. We install the best residential air-quality equipment available today, including whole-home air cleansing systems from Aprilaire. These advanced devices work with your air conditioner and/or furnace to filter and cleanse the air as it circulates and **remove up to 99.98% of all allergens and contaminants.**

If you are concerned that your indoor air is compromising your family's comfort or health, please give us a call today.

**Aprilaire®**

## "My Cute Pet" Photo Contest Winners

**BARLEY**

**ISIS**

In our last issue, we asked our readers to send in photos of their cute pets. We received so many entries of adorable animals, you could hear the "Awwws" all across our office, but we finally decided on these two cuties. Congratulations to

our winners, each of whom received a \$200 credit to their account. In honor of our customers' adorable pets, Farm & Home Energy has made a donation to the Montgomery County SPCA.

# AIR CONDITIONER TUNE-UP

## ACT NOW

# \$69.95!

**Regularly \$149.95**

Present this coupon to the service technician at the time of the tune-up and save \$80.00. Limited time offer.
